

## A Christian's Testimony of God's Holy Bible

Mormons often "bear their testimony". Frequently it is used as a shield when they are unable to directly answer a Christian's questions. It usually contains a statement about Joseph Smith being a true prophet and the LDS church being the only true church. Having a strong testimony is an important concept in Mormonism.

Mormons also often bash the Bible of today, saying it is full of errors - many intentional - and saying it is unreliable. In the same breath, they will also say that God's original Bible, which has been lost, is God's true word.

The following has been written as a Christian's testimony of God's Holy and Living Word, not lost; but readily available to any who want it. It may be used as is, you may draw a testimony of your own from it, or you may use the various scriptural references to present the truth in love to Mormons concerning God's Holy Book.

**I bear witness** that my Heavenly Father speaks to me daily. He reveals to me his divine will by speaking to me through his prophets in his Living Word, the Holy Bible, a Book readily available to all. My infinitely powerful God has promised to preserve his Word until all his chosen are brought home. Once spoken or read, his Word will not fail to return without accomplishing his will. Through his Word he teaches me his true Gospel and his true Will. His Word sustains me through each day and provides continuing revelations throughout my life, it is the active component of my daily walk with Christ. The wisdom and knowledge of his Word is inexhaustible. If I were to meditate on it all day and all night for the rest of my life, it would continue to reveal its truths to me and I would continue to grow spiritually. It is the only knowledge I require to guide my life on earth. It tells how Jesus has secured my place in his eternal kingdom. It is through the power of the words in his Book that I

was brought to spiritual life. It is through the truth recorded in his Book that I am commanded to test every prophet. Anyone who speaks different from what is in his Book is false and is cursed. This Book is wholly inerrant, wholly consistent, and is to be used to interpret itself. Through his Word I have learned of my God's desire, of his love for his bride, of his plan to pay my debt to sin by sacrificing his son. The Bible is my great source of comfort, of joy, of my heart's delight.
